

Dear Exhibitors of the Klubsieger-Zuchtschau

Maybe most of you know this already, but we got the following instructions from the competent veterinary department concerning the preconditions entering the European Community with dogs. More information can be found on this web site:

<https://www.bmel.de/EN/Animals/PetsAndZooAnimals/Texte/HeimtiereEinreiseregulung.html>

In case you come from one of the extra listed countries

(https://www.bmel.de/SharedDocs/Downloads/EN/Animals/TravellingWithPets/EN-DurchfuehrungsVO-577-2013-Anhang2-Teil1.pdf?__blob=publicationFile), your dog has to be marked with a microchip (or tattoo number).

You need a written declaration

(https://www.bmel.de/SharedDocs/Downloads/EN/Animals/TravellingWithPets/EN-DurchfuehrungsVO-577-2013-Anhang4-Teil3.pdf?__blob=publicationFile)

that the dog is not to be brought to here to be sold (traded).

And you need a health certificate

(https://www.bmel.de/SharedDocs/Downloads/EN/Animals/TravellingWithPets/EN-DurchfuehrungsVO-577-2013-Bescheinigung-561-2016_neu.pdf?__blob=publicationFile)

proving that the rabies vaccination was done properly.

In case you do **not** come from one of the listed countries, in addition to the requirements before you need to have a **blood test** of your dog, which shows that the vaccination against rabies was successful. This test must have been done 3 months before the entry.

We hope you can meet all this red tape preconditions and we can welcome you at the Klubsieger-Zuchtschau.
